### PROPERTY DESCRIPTION

Positioned in the heart of East End, this remarkable 34-acre parcel presents a rare chance to secure a substantial tract of land in one of Cayman's most up-and-coming areas. With a 30-foot road access already paid for and supporting documentation in place, much of the heavy lifting has been done—offering a clear path for future development. This is truly a developer's dream, with ample space and flexibility to bring a wide range of visions to life. Whether you're considering a residential community, private estate, or a long-term investment hold, the possibilities here are endless. The land also lends itself exceptionally well to farming or agricultural use, making it equally attractive for those seeking a more sustainable or income-producing venture. Large parcels with this level of potential, accessibility, and value—just under \$4 million—are becoming increasingly hard to find in East End. An opportunity like this doesn't come around often.
